MENARA KUALA LUMPUR

ARCHITECTURAL BEAUTY

The beautiful architectural design and motive illustrate the rich Islamic heritage, the brainchild of Kumpulan Senireka Sdn. Bhd. These local architects have successfully blended Eastern architecture with Western technology to build an elegant tower.

Lift Lobby

Dome shape arches at every doorway on the upper ground floor are decorated with glass that illuminates like giant diamonds whose surfaces are arranged according to the form of the traditional Islamic "Muqarnas".

This design from Esfahan, Iran forms larger brusque patterns at the bottom to symbolise the seven layers of the sky.

The receding shape of the apex symbolises the sun ray whereby it is also a symbol of man's journey towards perfection.

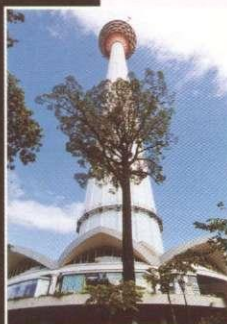

Muqarnas

Planning, setting up and decorating the Muqarnas were done by the Iranian experts using their own methods and skills that have been passed down for generations.

The soffit of the tower head is decorated with vertical rib structure on the outer layer on which the aluminium Islamic design is drawn. This can be seen from the Tower Terrace and the buildings around the tower.

SUSTAINING HARMONY WITH NATURE

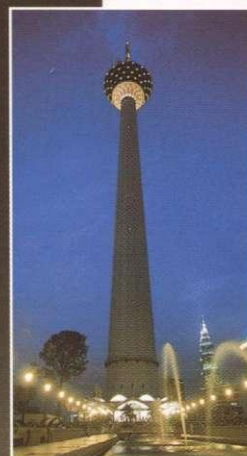

Menara Kuala Lumpur was built with an awareness to sustain the natural ambience to ensure the protection of Bukit Nanas natural surrounding. A 100-year-old Jelutong tree (*Dyera Costulata*) that was hindering the building process was decidedly preserved at the cost of RM430,000.00.

Jelutong Tree

WHAT YOU NEED TO KNOW...

Menara Kuala Lumpur is one of the tallest concrete tower in the world, at 421 metres in height with 45,000 metre³ of concrete used to build it. Designed with vertical rib structure on the surface, the tower weighs 100,000 metric tons and was built without piling.

Menara Kuala Lumpur

- Menara Kuala Lumpur is the tallest tower in South East Asia.
- Menara Kuala Lumpur is the fourth tallest telecommunication tower in the world and it took four years to erect. It was completed in May 1996.
- Menara Kuala Lumpur can endure against the wind pressure of 190 miles per hour.
- Menara Kuala Lumpur is a member of the World Federation of Great Towers.

DISCOVER OUR FACILITIES

Testimony of The Nation's Vision.

COMPARISON OF WORLD TOWERS

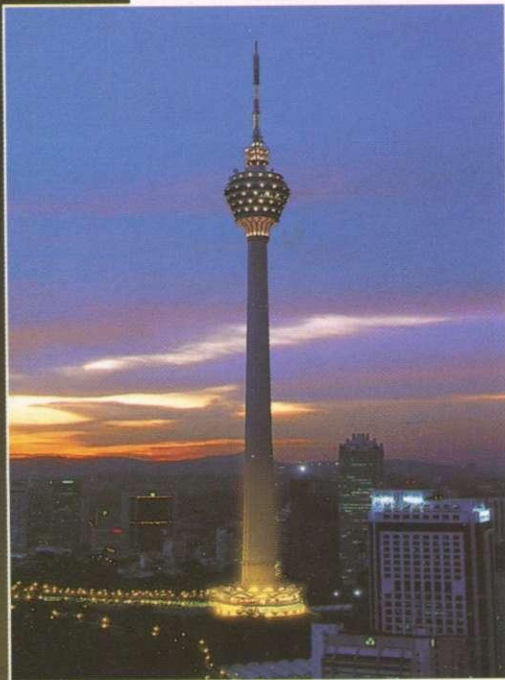

The 4 tallest towers in the world are:

- CN Tower, Canada at 553m
- Ostankino Tower, Russia at 540m
- Shanghai Tower, China at 468m
- Menara Kuala Lumpur, Malaysia at 421m

MENARA KUALA LUMPUR

Visitors to Kuala Lumpur, the garden city of lights, will not miss it. At the height of 421 metres, Menara Kuala Lumpur has become an attraction for both local and foreign tourists.

Standing beautifully atop Bukit Nanas, 94 metres above sea level, Menara Kuala Lumpur was erected as a telecommunication tower to improve the quality of telecommunications and broadcasting transmission. Undoubtedly, the tower symbolises the vast development of the nation's telecommunications.

FLORA AND FAUNA

Bukit Nanas Forest Recreational Park

The Bukit Nanas Forest Recreational Park formerly known as Bukit Weld Forest Reserve was gazetted in 1906. In 1934, the forest area was also gazetted as Bird and Wildlife Sanctuary. Subsequently, in 1950 the Forestry Department designated part of the area as a **Virgin Jungle Reserve** for forestry research and scientific studies.

The Bukit Nanas Forest Recreational Park which covers an area of 11.05 hectares is located in the heart of Kuala Lumpur city and the oldest gazetted forest reserve in the country. It provides open-air gymnasium called "Par-Course" and Forest Information Centre which is open to public.

In the forest one can find colourful butterflies, insects, monkeys, squirrels and exotic birds in their natural habitat. The forest also contains ferns, creepers and climbers, *Palmae* spp. and other indigenous plants.

Forest trails have been provided without affecting the natural beauty of the forest from Jalan Raja Chulan to Jalan Ampang. Walking trails that leads to Menara Kuala Lumpur have also been constructed for the visitors. They can also stroll and jog while enjoying the natural beauty of the forest.

Open Daily: 8.00 am – 5.00 pm

Access to the forest from Menara Kuala Lumpur is via the entrance gate near the bus parking area.
